## OHIO GOVERNOR

**Salary: \$161,121**

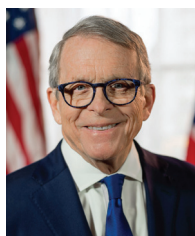

**Term: 4 years**

Responsibilities: Ensures that all laws are executed, reports the condition of the state, and presents a proposed budget to the legislature.

### Questions:

1. What are the most pressing policy issues facing Ohio? What solutions will you promote?
2. How will you address challenges in the healthcare system?
3. State the role of the governor in protecting the rights of women.
4. State your position on efforts to protect our water, air, land, and climate.
5. State your position on government oversight of gun ownership and safety.

### Mike DeWine, Republican

Candidate has not yet responded.

### Nan Whaley, Democratic

**Education:** BA, University of Dayton. MPA, Wright State University

**Qualification/ Experience:** Former Mayor of Dayton, Former President of the U.S. Conference of Mayors

**Campaign Website:** <http://nanwhaley.com>

**Question 1:** The top issue of this election is abortion access. Mike DeWine has already signed a six week abortion ban,

which is before most women know they're pregnant. We've already seen the results: terrible stories of 10 year old sexual assault survivors and cancer patients having to leave Ohio for necessary care. If DeWine is re-elected, abortion will be banned in Ohio. Doctors could be prosecuted and women's health records could be searched. As governor, I will block these awful attacks on women's rights, lead a ballot initiative to codify the protections of Roe v. Wade in the Ohio Constitution, and make Ohio a state that is welcoming to women and families. We also must do more to help working families. That's why I will fight to raise wages by investing in apprenticeship readiness programs and lower costs by cracking down on price gouging by drug companies.

**Question 2:** My opponent made huge cuts to Medicaid even as Ohio was facing the COVID-19 pandemic. I will always stand up for health care access and protect Medicaid expansion in Ohio. We also must do more to get health care costs down - especially when it comes to prescription drugs - because no one should have to choose between keeping food on the table and paying for their medicine. I'll fight for legislation that will impose fines on pharmaceutical companies that unfairly raise the cost of prescription drugs and I'll work to cap the out-of-pocket monthly cost of insulin at \$30. Many states, including Kentucky, have taken this step, and there is no reason Ohio cannot join them.

**Question 3:** The fact is, Gov. DeWine and his extremist allies have stripped away a woman's rights to control her own body and imposed a government mandate that bans abortion. Within hours of Roe v. Wade being overturned, DeWine helped implement a six week abortion ban, which would outlaw nearly all abortions in Ohio. Unfortunately, it is only going to get worse if he is reelected: DeWine has promised to go as far as possible to ban abortion in Ohio. This is an economic issue as well: are young women going to want to stay in Ohio when pregnancy complications could lead to their death? Will businesses want to move here if they can't attract top talent? It is time that we take back our freedom in Ohio. As governor, I will lead a statewide ballot initiative to put the basic protections of Roe v. Wade into the Ohio constitution so that women and doctors are not criminalized for making their own private health care decisions

**Question 4:** After FirstEnergy, a huge utility company, bankrolled his campaign, Gov. DeWine gave them everything they wanted, including a billion dollar bailout for their failing energy plants paid for by

new fees on every Ohioan's electricity bill each month. The law also gutted Ohio's renewable energy industry. Not only has the law been called the worst environmental policy of the 21st Century, but it is at the heart of the largest corruption scheme in Ohio history. As governor I'll clean up this corruption and fully repeal this awful bill. It's time our state finally prioritizes protecting our environment and supporting clean energy. Ohio has always been a leader in new technology and my energy and environmental plan will ensure that Ohio once again leads the nation in building the future by investing in the renewable energy industry.

**Question 5:** This issue is personal for me. As mayor of Dayton, I had to lead our city through an awful mass shooting that left 9 people dead. After the shooting, Gov. DeWine committed to me that he wanted to tackle gun violence in our state. Unfortunately, he broke his word. Time and time again, he has folded to the gun lobby and signed extreme bills opposed by law enforcement like stand your ground and permitless concealed carry. Most recently he signed a law to put more guns in schools with next to no training. Educators need 180 hours of training to renew their teaching license, but only 24 hours of training to carry a gun around your kids. As governor, I will fight to repeal these dangerous laws that will lead to more gun violence. I'll work to pass common sense laws like universal background checks and extreme risk protection orders that will actually make all of our communities safer.

## ATTORNEY GENERAL

**Salary: \$124,196**

**Term: 4 years**

Responsibilities: Represents the state in all legal cases in which the state is a party or has a significant interest.

#### Questions:

1. What divisions (e.g., consumer protection, environment, civil rights, immigration) will you prioritize and why?
2. When is it appropriate to bring cases on behalf of the state to federal court?
3. As Ohio's chief law enforcement officer, how will you remain nonpartisan while representing the diverse interests of all Ohioans?
4. How will you use your role to impact the criminal justice system, including inequities?

#### Jeffrey A. Crossman, Democratic

**Education:** JD from Cleveland-Marshall College of Law; MA from the University of Akron

**Qualification/Experience:** Two Term State Representative and Two Term Parma City Councilman

**Campaign Website:** <http://crossmanforohio.com>

**Question 1:** As Ohio's next Attorney General, my priorities will be defending the rights and freedoms of all Ohioans, helping our economy grow, protecting workers and ensuring people can retire with safety and security. My office will defend women's reproductive freedom and focus on protecting Ohioans' civil rights—truly guaranteeing Equal Protection under the law. We also intend to institute a section designated with the responsibility of rooting out the corruption that has plagued our state government and holding wrongdoers accountable, something that has not been done by our current AG who let the owners of ECOT and First Energy fleece Ohio taxpayers without holding anyone accountable.

**Question 2:** Cases should be brought in Federal Court when it is necessary to protect and defend the rights of all Ohioans. Ohioans' tax dollars should not be used to bring cases merely to support a political agenda.

**Question 3:** As Attorney General I will pursue cases that are in the interest of all

Ohioans—not just those who agree with me politically. The current Attorney General joins lawsuits at the behest of RAGA (Republican Attorney Generals Association) without regard for whether all Ohioans benefit from these lawsuits. This is why Ohio has joined lawsuits to overturn the 2020 election and challenged the USDA's anti-discrimination policy for LGBTQ youth in the school lunch programs and other blatantly political lawsuits. This diverts attention and resources away from doing the people's work on issues such as consumer protection, public corruption, civil rights, etc.

**Question 4:** As Attorney General I will use my powers to continue to pursue and prosecute malevolent actors while understanding that not every infraction of the law requires a strongest possible penalty. Too many people have been incarcerated for long periods of time for relatively minor nonviolent offenses and struggle to regain their footing in common society upon release from prison. I will also use the information available to the AG to assess differential sentencing outcomes and share this data with local prosecutors so they can be more informed while carrying out their duties. We can have a justice system in our state that continues to pursue bad actors to the full extent of the law without causing irreparable damage to the lives of decent people who may have made one mistake or committed a minor infraction.

## STATE TREASURER

**Salary: \$124,196**

**Term: 4 years**

Responsibilities: Collects and safeguards most state taxes and fees, and manages Ohio's investment portfolio.

### Questions:

1. What are your goals for improving the function of the treasurer's office?
2. How can the treasurer's office influence state fiscal policy?
3. How will you ensure transparency and accountability in state finances?

### Scott Schertzer, Democratic

**Education:** Bachelor of Secondary Education and Social Studies, University of Toledo

**Qualification/Experience:** Mayor of Marion since 2008, Marion City Council, 2000-2007

**Campaign Website:** <http://scottschertzerforohio.com>

**Question 1:** True accountability! The pension funds and investment funds, as well as the day to day functions of the office need a complete audit to ensure that taxpayer money is being protected and being used in the best way to help every Ohio citizen. I pledge to pinch every penny and be a true watchdog of the people's tax dollars!

**Question 2:** The Treasurer, through the various Link Deposit programs, as well as the decisions on how to invest the taxpayer's money, can have significant influence on the state's fiscal policies. Helping farmers and small businesses and minority businesses with access to low interest loans spurs growth and development throughout every corner of Ohio.

**Question 3:** I will order an outside, independent audit of every investment fund, as well as the day to day functions of

Treasurer's office itself. I will also call for independent audits of each of the state's five pension funds and make the results of all of these audits available to the public! I will also, while Treasurer, travel across the state to hear from everyday Ohioans on how state government can better help them succeed! As Treasurer, I will call for an independent inspector general to be created to monitor all investments of taxpayer money to ensure true accountability and transparency!

## CHIEF JUSTICE, OHIO SUPREME COURT

**Salary: \$193,251**

**Term: 6 years**

Responsibilities: Hears all cases involving questions arising under the Ohio Constitution or statutes; hears appeals from Courts of Appeals decisions. The Supreme Court's decisions are final except in cases involving the U.S. Constitution, statutes, or treaties.

### Questions:

1. List your judicial experience (courts and years)
2. What non-judicial legal experience qualifies you to be a judge?
3. Why are you running for this particular court seat?

### Jennifer Brunner, Democratic

**Campaign Website:** [www.justicebrunner.com](http://www.justicebrunner.com)

**Question 1:** Justice, Ohio Supreme Court, since January 2, 2021. Judge, Tenth District Court of Appeals, November 30, 2014

– January 1, 2021, elected 2014, reelected 2016, resigned 2021 to take seat on Ohio Supreme Court; Judge, Franklin County Common Pleas Court, December 1, 2000 – August 31, 2005; elected 2000, reelected 2002, resigned 2005 to run successfully for Ohio Secretary of State.

**Question 2:** I have 17 years private law practice experience representing clients in state trial and appellate courts throughout Ohio, the Ohio Supreme Court, federal courts in Ohio, state and federal agencies outside of Ohio and Ohio state and local administrative agencies. I have represented clients regarding their business concerns, their public participation in matters such as initiative and referendum, nonprofit and campaign work and private individuals on personal matters. The practice of law is a calling and I value it for the service lawyers can provide to the public in furthering the effectiveness of the rule of law for all.

**Question 3:** Steady and principled leadership of the state's highest court helps Ohioans realize justice in their everyday lives. Ohio is a very diverse state with deep rural roots, storied urban communities and countless small and middle-sized towns and cities. I take seriously my responsibility as one of seven people elected to do justice for all the people of Ohio. I am grateful for what I've learned from Ohioans in my many years of service to them, working at three levels of the state's courts and as Ohio's first female secretary of state. Administrative and policy leadership of the court is not about an ideology of who should win and who should lose. I know that courts can do good things for people; protect their health, safety and welfare with fairness, equality and respect.

Question 1: I was elected in 2012 to serve on the Franklin County Court of Common Pleas, Division of Domestic Relations - Juvenile Branch. I began service on January 5, 2013, was

re-elected in 2018, and resigned from that position on June 30, 2021. In total, I served on this court 8 1/2 years. I was elected to the Ohio Court of Appeals in 2020 and began service on July 1, 2021. I am currently one of eight judges on the court. I’ve been on the court for one year.

**Question 2:** I owned and managed a multi-line insurance agency for 16 years. In that capacity, I hired, trained, and developed staff, managed and reconciled receipts, negotiated contracts and grew business while maintaining quality. I have great people and active listening skills that translate into treating litigants with empathy, dignity and respect. As an extern with the Civil Rights Section of the Attorney General’s Office, I learned how to review a case file, prepare it for court, and prepare the discovery documents to illicit information. As a hearing officer intern for the Bureau of State Hearings and an intermittent hearing officer for Unemployment Compensation Review Commission, I learned how to rule on objections, admit evidence, give the oath to take testimony, make findings of fact and conclusions of law, and judge credibility of witnesses.

**Question 3:** First, to preserve and strengthen the Court’s Constitutionally granted status as an independent and co-equal branch of state government, and Second, to ensure that the promise of “Equal Justice Under Law” becomes a reality for all Ohioans... The court is the check and balance on other branches of government. I will work hard every day to restore public trust in our legal system, to abide by and to hold others to the highest possible ethical standards, to dispense justice fairly and equitably, to strive to ensure that all persons have access to the courts and competent legal counsel, to set an example for jurists at every level of our court system, to take affirmative steps to eliminate burdensome costs, and unnecessary delays, and to ensure that every litigant is provided with a fair hearing and the opportunity to be heard.

Pat DeWine, Republican

Marilyn Zayas, Democratic

Campaign Website:

Question 1: I have served our community as a judge at Ohio’s First District Court of Appeals since 2016, when I was first elected, winning against an incumbent appointed by the governor. I am the first Latina elected to any Ohio appellate court. In 2018, I was re-elected by an overwhelming majority of over 60% of the voters. I have decided over 1,000 appeals throughout Ohio. Additionally, I have served by appointed of Ohio’s Chief Justice on the Second, Sixth, Eighth, and Tenth District Courts of Appeals and on a case at the Ohio Supreme Court.

**Question 2:** I take an independent approach to each case, with a focus on maintaining integrity and impartiality. My legal career began as an intellectual property and labor and employment attorney. Later, I worked for the Hamilton County Public Defender’s Office representing adults and juveniles who could not afford to hire an attorney. I founded my own legal practice which focused on immigration law. I handled cases involving foreign investors who were bringing new businesses to America, family visas and asylum, and a variety of immigration appeals in federal courts.

As an appellate judge, I clearly and concisely explain my decisions so those impacted are confident that their case was fully and fairly resolved. My decisions are detailed, well-analyzed, and rooted in the Constitution and the law.

**Question 3:** You deserve a justice who will apply the law equally to all, regardless of circumstances or politics, and who has the courage to take on the challenging issues we are facing in Ohio, understands that a vibrant economy requires people who can realize their potential, and respects the civil liberties we expect, enjoy and are responsible for. My experience enables me to fully understand the complex legal issues we are currently facing. This comes from my experience as an appellate judge, 20 years of experience advocating for clients, career at Procter & Gamble as an IT Manager, and overcoming a tough childhood in New York City. In 2021, I was recognized by Good Morning America for my community contributions, including my work with students. My campaign is centered on: Access and accountability; advancing resources that reduce the risk of wrongful

convictions; and enlarging student programs.

**Campaign Website:**

**Question 1:** I believe the most pressing policy issue we face as a nation right now is climate change. Climate change is a clear and present danger to the entire globe. I will support legislation that gets a handle on the air and water pollution problem. Drinking water must be protected from contamination that may result from flooding, by retooling sewage and water treatment facilities. I will support revamping how reservoirs are managed; re-evaluate flood protection and modify power plant operations.

**Question 2:** The federal government must combat misinformation, prevent election tampering, and protect access to the ballot. The government should also reinstitute civics in school, and educate students about our government institutions, and how to participate. The government should ensure that voter registration is automatic at age 18.

**Question 3:** Dams, levees, floodwalls, pumps and reservoirs need to be redesigned, to better provide river navigation, flood control, and accommodate the use of hydropower. I support reducing water consumption, encouraging cleaner energy usage, and building safer cars that are less inclined to pollute the environment. We must build new regional power plant facilities and ensure that our workforce has the knowledge and skills necessary to understand emerging infrastructure technologies and techniques.

Early career: Film Preservationist, Library of Congress, WPAFB. Then, Marriage, Motherhood, Girl Scout Leader, 4H Advisor, PSR Teacher, Divorce, Artist-Activist, Election

Poll Worker, CENSUS Field Representative, Clergy Community Coalition Board.

**Campaign Website:** <https://www.kiehlforohiosenate.com/>

**Question 1:** Politicians don't choose the voters, the voters choose their representatives. The Republican Majority Redistricting Committee submitted five Congressional maps that the Ohio Supreme Court ruled unconstitutional. This is lawlessness. No one is above the law, especially the Governor. We are a country of laws and these rogue members including Governor DeWine and Secretary Frank LaRose must be held in contempt by the court or voted out by the electorate. When elected and if the Republican majority holds I will be among those Senate and House members that call for contempt charges.

**Question 2:** Over 20 years ago, the Ohio Supreme Court ruled Ohio's funding of schools based on property tax unconstitutional. Since 2020, House Bill 305 continues to languish in a Senate sub-committee... It is time to dust off this important piece of bi-partisan legislation and get it passed. We must fully fund Universal Pre-K. This helps working parents and low income families who cannot afford the high cost of childcare and creates equity in preparedness for upper grades. The salary for Pre-K teachers must be on scale with upper grades as their work is equally important. No child in Ohio should go hungry. Schools are a central community hub. Let's end the trauma of food insecurity suffered by our most vulnerable children by providing meals 3 times a day, 7 days a week.

**Question 3:** I am pro-choice. Choice for

women and girls to have full healthcare support while receiving a safe abortion due to illness, violence or personal reasons. Choice for women to have healthcare during pregnancy and birth, a stable home for the mother and baby, food security, enlightened education, and a clean environment as they grow. Roe v Wade exposed the need for and made available safe abortions, but it was a weak case ruling and should always have been recognized as the first step. We need a strong Constitutional amendment for Reproductive Freedom for Women and the Protection of Women, Girls and children.

**Question 4:** The unstable sustainable energy policy in Ohio has kept many investors away from the state as we continue to rely on coal, oil, gas, nuclear and imports. Ohio's energy instability is a factor in climate change as higher temperatures, stronger storms, tornadoes and droughts wreak havoc across the state. The corruption surrounding HB 6 reveals the ugly underbelly of the nuclear, coal, oil and gas lobbies dictating policy. We in Ohio must create a clear Clean Green Sustainable Energy Policy that meets the needs of all our communities. Ohio can be a leader in research, development and investment in new green sustainable energies because of our dedicated college, agricultural, engineering and technology communities.

- 1. What is your view of the way redistricting has proceeded in Ohio this year? What will you do to ensure that voter-approved redistricting reforms are implemented?*

**Question 1:** The way redistricting has proceeded in Ohio is criminal. The only way to ensure that one party cannot hijack our democracy through gerrymandering is by drafting and passing legislation that leaves the law makers out of the entire redistricting process. It must be completely independent of those who stand to gain, lose or retain those seats.

**Question 2:** The latest legislative actions on guns just made it easier for anyone to conceal carry and ensured that teachers can also carry with some training and without qualified immunity. The FOP and Education Unions actively lobbied against these laws and were ignored. They are still ignored by the very lawmakers that voted to make their lives and jobs more dangerous. Moreover, I have yet to meet a teacher or student who thinks this is a wise move. Schools need trained officers to handle the threats, and they need teachers to teach. Officers also

need less people with unregulated access to extremely deadly firearms. The results of more unregulated access to guns is more death. We must listen to the experts and draft appropriate legislation.

**Question 3:** Women's reproductive rights are basic human rights. Reproductive healthcare is healthcare and is not the business of any lawmaker. Ever. The only healthcare legislation I am interested in drafting and supporting is legislation to expand access and affordability to everyone who needs healthcare.

**Question 4:** We don't have a choice but to develop renewable energy sources in Ohio. Climate change is here and Ohio rests in a relatively resilient area of the country. Migration from climate change will change the landscape and population of our state moving forward. We must be ready for the influx of change and decide how we are going to preserve our natural resources while welcoming the economic benefits to our cities and towns. This will take focus groups from all counties and experts on sustainable population growth models. My recommendations will always be expert and local government centered.

## BUTLER COUNTY COMMISSIONER

*Salary: \$95,202*

*Term: 4 years*

**Responsibilities:** To exercise financial control of County expenditures; to authorize public works; to purchase land and buildings; to vet contracts; to plan and administer welfare. The Board of County Commissioners also appoints other officials to operate various departments.

### Questions:

1. *Why are you running for this position and what skills and experiences do you bring?*
2. *What would be your top priorities in this position?*
3. *How would you ensure accountability in budgeting? In particular, what is your strategy for handling distribution of funds from the American Rescue Plan?*
4. *What do you see as the priorities for land use planning within the unincorporated areas of Butler County?*

### Cindy Carpenter, Republican

**Education:** Attended Miami University

**Qualification/ Experience:** Previous experience: 3 terms as County Commissioner and 4 terms as Clerk of Common Pleas

Court. Currently serving on Ohio Board, Courthouse Restoration Committee, Criminal Justice Board, Housing and Homeless Coalition, Investment Advisory Board, Land Bank, BC Cares Group, OSU Advisory Council.

**Campaign Website:** <https://www.cindycarpenter.com/>

**Question 1:** In early 2020, at the start of the pandemic, I began holding weekly meetings with key leaders from the health

and business sectors to coordinate local response with state and federal officials. We faced some of the most difficult challenges of my public service. In fact, many of the American Rescue Plan proposals were developed to make improvements recommended by my weekly health and business collaborative, which we named BC Cares. Project proposals include \$10 Mil for countywide broadband, new facilities for the General Health District, and building two Butler Tech schools for workforce.

**Question 2:** My number one priority is to ensure that Butler County is placed in the best position possible to recover from the pandemic and “the great resignation” that followed. Workforce development and retention are critical initiatives along with acknowledging that a segment of the workforce now desires to work from home. The challenges with housing and homelessness were exasperated during the pandemic. I have organized a countywide housing collaborative that is finalizing a housing inventory and will develop a countywide housing plan in partnership with the local communities.

**Question 3:** I met with communities across Butler County to discuss projects that met the criteria for America Rescue Plan Funds. First and foremost, I supported two new Butler Tech schools, a school of Advanced Manufacturing and a school of Aviation. Both schools were funded and will be build. Additionally, I supported a Crisis Stabilization Unit, The Great Miami River Trail, expansion of Metro Parks, broadband accessibility, critical water system repair, small business support, all of our community centers, and revitalization of aging neighborhoods, in accordance with US Treasury guidelines.

**Question 4:** I foresee that the Butler County Commissioners will continue to look to Township Trustees for guidance within their own particular township. Butler County is unique in its diversity; urban, suburban, forests, streams, farmland, etc... With that being said, there are initiatives underway that will benefit Butler County residents regardless of their home community. One example is the Great Miami River Trail. I strongly support completing the trail and connecting Butler County to the hundreds of miles of trails throughout Ohio. I also support improving the river for recreational activities.

**Question 1:** Our County Auditor has been indicted on six felony corruption charges. I’m running for Butler County Auditor to put an end to these scandals and restore good government practices. As a Mayor and City Councilmember, my record was built on transparency, fairness and restoring public trust. My approach is simple: good government is responsible, responsive and open. Together with your support, we can restore integrity, accountability and fairness to the office of the Auditor. I ask for your support so we can move past these scandals and get back to serving you.

**ISSUES**

State Issue #1:  
Proposed Constitutional Amendment

**TO REQUIRE COURTS  
TO CONSIDER  
FACTORS LIKE  
PUBLIC SAFETY  
WHEN SETTING THE  
AMOUNT OF BAIL**

Proposed by Joint Resolution of  
the General Assembly

To amend Section 9 of Article 1  
of the Constitution of the State of  
Ohio.

A majority yes vote is necessary for the amendment to pass.

**The proposed amendment would:**

- Require Ohio courts, when setting the amount of bail, to consider public safety, including the seriousness of the offense, as well as a person's criminal record, the likelihood a person will return to court, and any other factor the Ohio General Assembly may prescribe.
- Remove the requirement that procedures for establishing the amount and conditions of bail be determined by the Supreme Court of Ohio.

**Pros**

- Bail is about appearing for the person's court date according to the guidelines and the Supreme Court. This amendment ensures that courts, when setting bail, consider factors such as public safety,

an individual's criminal record, and the severity of the offense committed.

- Courts can consider public safety, among other factors, when setting the financial conditions of bail rather than the longer process of denying bail completely.
- Puts cash bail and its conditions directly in the Ohio Constitution.
- Gives individual courts more discretion in determining cash bail.

#### Cons

- This amendment would no longer require the Ohio Supreme Court to establish consistent rules of bail, placing cash bail and its conditions directly in the Ohio Constitution.
- There is no substantial evidence that bail ensures public safety. But rather, it can worsen or create inequities.
- Bail allows some accused persons with enough money to be freed pretrial, while others without enough money remain incarcerated for the same or lesser crime.
- Cash bail may lead the accused in jail during pretrial to plead guilty in exchange for their freedom while awaiting trial.

## State Issue #2: Proposed Constitutional Amendment

### TO PROHIBIT LOCAL GOVERNMENT FROM ALLOWING NON- ELECTORS TO VOTE

Proposed by Joint Resolution of  
the General Assembly

To amend Section 1 of Article  
V, Section 3 of Article X, and  
Section 3 of Article XVIII of the  
Constitution of the State of Ohio.

**A majority yes vote is necessary for the amendment to pass.** If passed, the amendment will be effective immediately.

#### The proposed amendment would:

- Require that only a citizen of the United States, who is at least 18 years of age and who has been a legal resident and registered voter for at least 30 days, can vote at any state or local election held in this state.

- Prohibit local governments from allowing a person to vote in local elections if they are not legally qualified to vote in state elections.

[Note: Federal law does not allow noncitizens to vote in federal elections but it does not prohibit them from voting in local elections]

#### PROS

- Prevent the confusion for non-citizen legal residents voting in local elections
- Protect non-citizens from adverse legal action in regard to voting.
- Prevent an increased administrative burden by creating a new system of voter registration for non-citizen legal residents in areas where this is enacted
- Clarifies the intent of the Ohio Constitution in regard to citizenship and voting.

#### CONS

- Prevents non-citizen legal residents from voting locally, which weakens community involvement and input in cities that allow it
- Non-citizen legal residents are taxpaying members of our communities. This amendment prevents these residents from the right to vote provided to other taxpayers.
- Weakens the ability of municipalities to govern themselves
- Eliminates the rights of 17-year old citizens (who will be 18 by election day) to vote in a primary election, as well as permanently makes the voter registration deadline 30 days prior to election day.

### Talawanda School System Levy

The League of Women Voters of Oxford strongly supports the 5.7 mill operating levy to provide operating expenses for the Talawanda School System. We believe that the support of education is vital to building strong communities and a healthy democracy. Excellence in local education cannot be achieved without appropriate funding.

The previous operating levy was passed in 2004, so this is the first levy for additional tax to fund operating expenses in 18 years. The school funding situation is now critical, as the school district has been operating at a deficit since 2019. Despite making multiple cuts to programs and staffing, more resources are needed to service our students.

Cutting vital teaching and support staff has had an especially negative impact on student learning. The increased funding provided by the levy is needed to fund basic operating expenses and is essential to continuing a high quality education for our students.

The mill levy is based on the property's assessed value, and the levy will be 5.7 mill for every one dollar of valuation. To see how this impacts you financially, go to <https://propertysearch.butlercountyauditor.org/> and search for your property address or owner name. Then choose the Levy Tab on the left hand side of the page.

Adequate financial support of education is vital to our school system. After nearly two decades without an increase, we believe that this levy is both necessary and reasonable.
