**PRESIDENT OF THE UNITED STATES**

**PRESIDENTIAL PREFERENCE PRIMARY**

*How Elected:* Every four years, political parties nominate candidates to run for President of the United States in a general election that is held on the first Tuesday, after the first Monday in November. Although all parties use conventions to nominate their candidates, in most states the Democratic and Republican parties also run state-wide primary elections or caucuses. The results of the primary influence how the delegates to their respective party’s convention will cast ballots for candidates for President. The degree to which the result of the primary influences the votes of delegates at conventions varies from state to state.

*Note:* All candidates who will appear on the Pennsylvania ballot are listed below, but only those that meet the following criteria were invited to respond to the League’s questions in this guide.

1. The candidate must have made a public announcement of her/his intention to run for her/his Party’s nomination for President; and,
2. The candidate must meet the Presidential Election Campaign Fund Act’s minimum contribution threshold requirements for qualifying for matching funds, based on the most recent data publicly available on the Federal Elections Commission website.

During the Presidential primary season, voters cast a ballot for candidates in one party. League of Women Voters Education Fund (LWVEF) is required to have at least two candidates from the same party meet the above criteria before launching a voters’ guide covering that party. At this time, only one candidate running for the Republican Party’s nomination has met the LWVEF criteria and therefore no Republican candidates have been invited to participate. As soon as two Republican candidates meet the criteria or the party’s national nominating convention occurs, LWVEF will begin outreach to the qualified candidates immediately.

**Questions:**

**What policies do you support to improve and secure elections and voting in our country?**

I’ve fought for voting rights since I first got involved in politics, helping to secure several extensions of the Voting Rights Act. But in 2013, the Supreme Court ripped the heart out of those voter protections. As president, I’ll enact legislation to restore the full force of the Voting Rights Act, and my Justice Department will challenge every one of the new Jim Crow laws that are now curtailng people’s right to vote. I’ll also boost state funding for secure voting with a paper record, and for better information-sharing. I’ll fight for automatic and same-day voter registration. And I’ll make sure that any country or group that seeks to interfere in our elections faces real and serious consequences.

**Please explain where you see opportunities for Democrats and Republicans to find common ground on the very serious issues facing our country.**

The next president will inherit a divided nation and a world in disarray. They’ll need to hit the ground running to fix Trump’s mess, restore our global standing, and bring people together to get things done. Our next president will need to be a president for ALL Americans. I refuse to accept that we can’t work together to solve tough problems. It’s what democracy is all about. We can rebuild the middle class with historic investments in infrastructure, tackle prescription drug companies’ price-gouging, build on Obamacare with a public option and so much more. I know how to find common ground without compromising my values.

**What, if any, steps will you take to reform current immigration policies?**

We’re a nation that values immigrants – it’s how we’ve constantly been able to renew our democracy. As president, I’ll reverse Trump’s assault on our values on day one, ending his cruel asylum policies, especially his Migrant Protection Protocols, family separation, and public charge rule. I’ll address the root causes pushing people to flee Central America. I’ll act immediately to protect Dreamers and their families. Then, I’ll invest real political capital to finally deliver legislative immigration reform to modernize our system, giving nearly 11 million undocumented people a path to citizenship, updating our visa system to sharpen our economic competitive edge, and preserving family unification and diversity as cornerstones of our system.

**Please explain the policies, if any, you support to address gun violence in America.**

Gun violence is a public health epidemic. We need courage to stand up to the NRA and fix our broken gun laws. I’ve beaten it before – twice. As president, I’ll do it again. I’ll ban assault weapons and high-capacity magazines and require background checks for all gun sales. I’ll fight for red-flag laws and close the Charleston and boyfriend loopholes, to get guns out of dangerous hands. I’ll invest in smart gun technology and new strategies to reduce daily gun violence in cities. I’ll work to heal trauma that outlasts shootings, starting by doubling the number of school mental health professionals. And I’ll address the deadly nexus of gun violence and domestic violence, starting by signing into law the Violence Against Women Act of 2019.

**What, if any, actions would you work towards in your first 100 days to address the threats facing the US due to climate change?**

Climate change is our most urgent threat. Beating Trump won’t end it, but it’s key to all progress. In 1986, I introduced one of the first climate bills; Politifact says I’m a “climate change pioneer.” Now, I’ve outlined a bold plan to match today’s crisis – putting us on a path to a 100% clean-energy economy and net-zero emissions by 2050. On day one, I’ll rejoin the Paris Accord, restore American leadership, and push the world to do more. I’ll invest $1.7 trillion in clean energy research and development, and in transforming our infrastructure – from electric vehicle charging stations to high-speed rail – reducing emissions and withstanding the impacts of a changing climate, and creating 10 million good-paying jobs, that can be union jobs.

**NATIONAL POLITICAL CONVENTION DELEGATES**

**4TH CONGRESSIONAL DISTRICT**

Delegates to this summer’s national political conventions are elected at this time. The delegates choose their party’s nominees for President and Vice President and write party platforms. Alternates have no vote unless they replace a delegate. Pennsylvania delegates, both
Republican and Democratic, are not bound by the results of the state’s Presidential Preference Primary.

**DELEGATES TO THE DEMOCRATIC NATIONAL CONVENTION**

Democratic candidates for delegate run as “committed to a presidential candidate,” and the name of the candidate to whom each delegate is committed appears on the ballot. Democratic delegates are committed to a given candidate on the first convention ballot only, and may be released by the candidate prior to the first ballot. Democratic voters may vote for any combination of delegates they choose, regardless of the delegates’ commitments to a presidential candidate. Delegates are elected as individuals, despite being committed to a candidate, and no voter is required to choose the entire slate of delegates for any one candidate.

**Questions:**

What are your top three priorities to address as Attorney General?

1. Keep PA Safe—The Commonwealth Attorneys Act states one of the main roles of the AG is criminal prosecutions. This would be my top priority. The AG works with local DAs and law enforcement to keep PA residents safe, including a strong commitment to addressing drug trafficking and the opioid crisis.

2. Put People Before Politics—Restore the AG’s Office to following mandates set forth in the Commonwealth Attorneys Act and perform lawyering for the people of PA versus using the office for political gain.

3. Protect the Mentally Ill—Establish a Blue Ribbon Panel of experts from PA to examine the treatment of the mentally ill, address the current state of mental illness, and more. The panel would issue a Report suggesting structural changes.

The Office of the Pennsylvania Attorney General is responsible for law enforcement and the equal protection of law for all citizens. What do you see as the primary challenges to achieving equality under the law?

Keeping PA safe has to be the top priority of the AG. The AG’s statutory role is the prosecutor of crime. The AG has to prioritize resources, so scarce resources are used for the highest priority tasks of the office. Crime enforcement, in conjunction with the DAs is the first priority. Crime operates across County and jurisdictional lines, so coordination with multiple County DAs is critical. Investigations that may take years and cost millions can’t be wasted by prosecutors failing to follow criminal procedure. The AG must take an active role in the management of the office. The purpose of prosecuting crime is to ensure safety, not create headlines. With that purpose in mind, equal protection for all should be achieved.

**What role will your administration play in reforming systemic problems and supporting restorative justice in our criminal justice system?**

As the County Councilperson At Large on Allegheny County Council, I was critical of the operation of the county jail. The Allegheny County jail had more suicides than any other jail in the country. 1. Keep PA Safe—Drug trafficking and the opioid crisis. 2. Put People Before Politics—Restore the AG’s Office to following mandates set forth in the Commonwealth Attorneys Act and perform lawyering for the people of PA versus using the office for political gain. 3. Protect the Mentally Ill—Establish a Blue Ribbon Panel of experts from PA to examine the treatment of the mentally ill, address the current state of mental illness, and more. As the County Councilperson At Large on Allegheny County Council, I was critical of the operation of the county jail. The Allegheny County jail had more suicides than any other jail in the country. I determined that one county employee had repeatedly failed to process the proper release of a large number of people from the jail, and she was terminated. Each day someone is in jail, it cost taxpayers, they become a suicide risk and lose their liberty unnecessarily. As AG, I would continue to advocate for government institutions to properly run jails and prisons. Jails and/or prisons must be properly run so we have the space to jail criminals, not those who don’t belong there.

Questions:
What are your top three priorities in office?
I have always thought of myself as a hard working voice for all people, and have served with the trust of those I represent in Harrisburg. Now, I believe it is time to use my voice for all Pennsylvanians by holding our government accountable. If you believe as I do, that our government needs to be held accountable for its spending, that our government must have an advocate for taxpayers, and that our government must work for all Pennsylvanians, then please consider supporting this campaign. Only through building a strong coalition of voters across the state, can we hope to secure these goals.

What distinguishes you from other candidates who are seeking to be Pennsylvania’s next Auditor General?
I am running for the Office of Auditor General because I have seen firsthand how wasteful spending can impede the missions of government. I believe that the work of the current Auditor General’s office must continue, and that every taxpayer dollar should be spent legally and efficiently. I have spent my career serving the people of the 77th Legislative District, first as Chairman of the Centre County Commissioners, where I oversaw a $90 million dollar budget. After I was elected to the House, I was placed on the appropriations committee as a freshman representative, because of my experience in government. Furthermore, I co-own and operate a business with my wife Terri in Philipsburg, PA.

MICHAEL LAMB, Allegheny County
Occupation: Pittsburgh City Controller
Mailing address: 1015 Grandview Ave Pittsburgh, PA 15211
Education: BA Penn State University MPM Heinz College, Carnegie Mellon University JD Duquesne University School of Law
Qualifications: As Controller since 2008 I have protected residents from waste, fraud and abuse of their tax dollars. My audits have uncovered millions in savings and I have provided unprecedented levels of transparency into city finances. I also led the effort to reform our county into a home rule community.
Campaign website: http://www.lambforpa.com
Campaign Facebook: http://www.facebook.com/MichaelLambPA
Campaign Twitter: http://www.twitter.com/MichaelLambPA

Questions:
What are your top three priorities in office?
The Auditor General is our 1st line of defense against public corruption. I plan to address that in part by bringing unprecedented levels of transparency to the Commonwealth. I have developed several tools of transparency for greater public engagement into the issues of public finance. I plan to bring those tools to the Commonwealth. During time of crisis it is important to recognize that some will see an opportunity for fraud. I have developed a plan to address these concerns indiccluding testing for price gouging, addressing misinformation, protecting whistleblowers and monitoring stimulus spending. PA’s largest cost is education. I plan to devote significant resources to hold accountable our charter schools and all institutions of learning.

What distinguishes you from other candidates who are seeking to be Pennsylvania’s next Auditor General?
As City Controller it has been my job every day to watch over spending and protect taxpayers from waste, fraud and abuse. My record of fiscal responsibility, innovation, reform and open government helped me to play a key role in leading Pittsburgh out of near bankruptcy. My efforts to address our legacy costs while protecting our public assets have helped place our city on firm financial footing. As county row officer, I put people first by advocating a reform that eliminated my own job while generating savings to our taxpayers. As an attorney I have focused on helping communities restructure their finances while helping pension fund trustees address losses to their portfolios due to fraud. I am uniquely qualified to be Auditor General.

Questions:
What are your top three priorities in office?
1. Addressing the impact of significant staff shortages, as a result of continual legislative budget cuts, on the department’s ability to properly and timely complete 5000 mandated audits annually. At the time of my hire, the Department had 850 employees statewide and was down to 392 at November 1, 2019, while still being responsible for the completion of 5000 audits annually.
2. Preventing the fraudulent use of PA’s COVID-19 Economic Stimulus Funds and Small Business Loans proceeds by helping to ensure that these funds are properly awarded to PA’s intended recipients.
3. Protecting the lives of PA’s most vulnerable citizens—our children, our elderly, and mentally challenged.

What distinguishes you from other candidates who are seeking to be Pennsylvania’s next Auditor General?
I am the only candidate in this race who, in addition to being a CPA, served in leadership roles in the administrations of the current and prior three Auditor Generals. As a result, I know this department, its staff, where they are strong, and where improvements are needed, making me the only candidate in this race who will be ready on Day 1 of taking office to effectively lead this department, specifically given the department’s significant staff cuts. I am also the only candidate in this race who, while on the campaign trail, issued 2 OP-ED pieces: 1. Policy to Support PA Attorney General’s Efforts to Monitor State Funds Awarded to NonProfits 2. Reducing PA’s Risk of Fraud, Waste, Abuse, and Mismanagement of COVID-19 Economic Stimulus Funds

Campaign Facebook: http://www.facebook.com/ROSIE-for-PA-113154753563481/

Questions:
What are your top three priorities in office?
1. The top priority is to save the PA taxpayers roughly $600,000 dollars of extra salary cost because as the next Auditor General, there will be no need to hire another CPA to direct the audit team because I have the direct CPA experience to handle the technical job. 2. Addressing public school district funding inequality. I plan to
review public school district funding from a top down approach. 3. A significant portion of State taxpayer sponsored programs and services are outsourced to 3rd-party contractors who provide substandard and inadequate services. I will conduct more performance and effectiveness audits of 3rd-party contracts. Like: The share ride program for elderly and vulnerable citizens is on top of the list.

What distinguishes you from other candidates who are seeking to be Pennsylvania’s next Auditor General?

I am the most qualified candidate because I am a financial professional that has CPA public accounting and federal audit experience. I have an accounting degree, a CPA license and 34 years of real and relevant audit experience. I bring Wall Street and Main Street experience to the Auditor General’s office. I have a life time of managing audit teams and bringing real results to my clients over the years. I am independent and owe no one any political favors therefore I can provide honest and candid assessments of operations at State agencies and programs. I have a stellar track record of identifying instances of fraud and abuse in governmental operations and within City and State Controller’s offices.

Campaign Twitter: http://twitter.com/hartmanforpa

Questions:

What are your top three priorities in office?
My priorities are education, healthcare, and criminal justice reform. Education audits account for a third of this office’s work. I will evaluate the discrepancy between the standards and funding for public schools and charter schools, which are often held to lower standards, harming our students on the taxpayers’ dime. Healthcare costs continue to rise, especially for seniors. I will look at rising drug costs and nursing home treatment of seniors, to ensure that Medicare/Medicaid dollars are spent well for our most vulnerable. For criminal justice, I will examine inefficiencies created by focusing on punishment over rehabilitation leading to high recidivism rates, a truly inefficient and ineffective use of our tax dollars.

What distinguishes you from other candidates who are seeking to be Pennsylvania’s next Auditor General?
I have the technical, leadership, and political experience to win in November and lead the Auditor General’s office. I’m the only candidate who has run in a competitive general election with Trump at the top of the ticket and narrowed the GOP margin. When I ran for Congress in 2016, we raised $1.25 million and got endorsed by the national party and EMILY’s List, in a district originally deemed too red to win. That experience is going to be crucial in 2020. Finally, we are running a true statewide campaign. We have more than 60 endorsements, including Gov. Rendell, in 18 counties, and I’ve been to 45 of 67 counties. As a candidate from central PA, I’m working to unite Democrats across the state to make sure we turn PA blue in November.

Questions:
What is the most important duty of the State Treasurer? If elected, how would you carry out that duty?

From Day One, my most important duty has been restoring integrity to an office too often marred by scandal—three of the last five elected Treasurers have been indicted. Upon taking office, I immediately banned the use of middlemen to win investment contracts and introduced Treasury’s first-ever conflict-of-interest policy and Chief Integrity Officer. In addition to restoring integrity, we’ve created the Keystone Scholars program, which gives at-birth college and career savings accounts to every child born or adopted in Pennsylvania after January 1, 2019. Furthermore, we fight to hold Wall Street accountable to taxpayers, including through legal action when necessary and as trustees for our public pension systems.

What distinguishes you from your opponent in the general election?
I have spent my career in the public sector, fighting for the responsible use of taxpayer funds in our civic institutions. Before serving as Treasurer, I was the U.S. Ambassador for UN Management and Reform. Prior to that, I was the founding President and CEO of the National Constitution Center and Philadelphia’s Deputy Mayor for Policy and Planning. What these roles have in common is a dedication to the highest and best use of funds, contributed by the masses, toward a common goal. They each require the careful stewardship of someone else’s contribution: to reinforce effective international cooperation; to build a beautiful civic resource for our nation; or to resolve a $1.25 trillion deficit and revitalize a vibrant major American city.

• REPRESENTATIVE IN THE U.S. CONGRESS •

Description of office: Congress, the legislative branch of the federal government, is composed of two houses. The upper house is the Senate. The lower house is the House of Representatives. A majority vote by both houses is necessary to pass a law. The U.S. Constitution requires that the House of Representatives be composed of elected Representatives from each State. There are 435 voting members of the House of Representatives. The number of Representatives from each state is proportioned according to its population, with 18 Representatives from Pennsylvania. A US Representative must (1) be at least twenty-five years old, (2) have been a citizen of the United States for the past seven years, and (3) be (at the time of the election) an inhabitant of the state they represent.

The House of Representatives is responsible for creating the budget and initiating bills to collect taxes and other money, although all bills must pass the Senate and be signed by the President. Questions:
What would be your top priorities as a U.S. Representative over the next two years?
1. Ensuring that there is universal healthcare for all Americans. Healthcare should be a right in this country, and that means high-quality and affordable health coverage for all—including a robust public option. And we must ensure that basic health coverage includes mental health services, addiction treatment, and women’s reproductive services. 2. Ending gun violence. By enacting legislation that requiring universal background checks, closing the Charleston Loop hole, banning assault-style weapons, extreme risk protection orders, and other common sense reforms that will save lives. 3. Ethical good government. Not only acting with purpose, but also being transparent, accountable to our constituents, and serving others.

The landmark Shelby v. Holder decision overturned protections in the Voting Rights Act of 1965 that required certain states and local governments to obtain federal preclearance before implementing voting laws or practices. Since then, the U.S. has experienced a surge of legislation that makes it more difficult for many people to vote. What voting reforms do you see as essential to making U.S. elections accessible and secure?
We must sign HR1 into law. The bill would create a national voter-registration program, make Election Day a federal holiday, replace partisan gerrymandering with non-partisan commissions to draw electoral districts, and limit efforts to purge voting rolls. It would also allow for early voting, same-day registration, and restore voting rights to ex-felons.

How would you go about finding consensus and reducing gridlock in Washington, D.C.?
I have several bills that I have either introduced or co-sponsored with my colleagues across the aisle. By focusing on the issues our constituents want and need, like clean water, addressing student debt, combatting the opioid epidemic, and providing relief in the wake of the COVID-19, there is much to be accomplished across party and state lines. I also serve as the Vice Chair for the Bi-Partisan women’s caucus. This committee works to advance women and family issues in a collaborative setting. We have addressed equal pay, supporting our military families, and international women’s rights.

1. Ensuring that there is universal healthcare for all Pennsylvanians. Healthcare should be a right in this country, and that means high-quality and affordable health coverage for all—including a robust public option. And we must ensure that basic health coverage includes mental health services, addiction treatment, and women’s reproductive services. 2. Ending gun violence. Questions:
Access to the ballot box is one of the most important rights for a citizen. Although Pennsylvania recently modernized its election code, there are other reforms that would further modernize Pennsylvania’s elections. If elected, what reforms would you support to ensure that all citizens who want to vote are able to securely, privately, and independently cast a ballot? We need to ensure that everything possible is done to protect elections in PA. Investing in effective solutions for election security is not a partisan issue. Same-day registration is a viable option that PA must seriously consider if we want to make sure all residents can participate in the democratic process. In a pandemic era, we serve democracy best when we protect people equally as well as the election processes. That is why established practices learned from other states matter. Drop-off boxes for mail ballots is something that states like Oregon have used successfully for decades, while the use of prepaid postage legislation will extend PA’s. Even our military has successfully used mail-in ballots since the Civil War.

While there have been some positive legislative actions recently, partisan gridlock in Harrisburg has taken its toll, and many people feel that Pennsylvania’s state government is dysfunctional. What types of reforms, if any, would you support to make the legislative process in Harrisburg more effective? Most Pennsylvanians aren’t aware that there isn’t a limit on the amount of money PACs and individuals can contribute to a candidate’s campaign, devaluing the democratic process in favor of corporations and special interests. People, and not corporations, need to have a voice. We also need to control spending. It’s time to ban the practice of legislators receiving undocumented per diem payments for trips to Harrisburg without any receipts. Finally, we must end gerrymandering. We need fairly drawn districts based on nonpartisan, objective and independently informed panels that place the power back in the hands of communities instead of defining them based on political gaming.

Do you support a state constitutional amendment to form an independent commission to redraw Congressional and legislative districts? Why or why not? I am committed to ending the practice of gerrymandering through an independent commission. Research has demonstrated how gerrymandering has a damaging effect on democracy in Pennsylvania and across the country. We must pass HB22 and HB23 to allow the voters of Pennsylvania to decide via the ballot whether to add a constitutional amendment for an independent, citizen-focused commission to draw fair districts. Federal inaction on gerrymandering has abdicated this responsibility to the states, and an independent, multilateral commission is the fairest, most common-sense way forward.

Although Pennsylvania recently modernized its election code, there are other reforms that would further modernize Pennsylvania’s elections. If elected, what reforms would you support to ensure that all citizens who want to vote are able to securely, privately, and independently cast a ballot? I feel Act 77 was a good start but until we can get online voting into law it isn't good enough. I would also aggressively support more use of the vote by mail system. A good example of this is Colorado. They are 100% vote by mail and have historically had the second highest voter turnout in the country.

While there have been some positive legislative actions recently, partisan gridlock in Harrisburg has taken its toll, and many people feel that Pennsylvania’s state government is dysfunctional. What types of reforms, if any, would you support to make the legislative process in Harrisburg more effective? With the 2020 census underway we can look forward to a clearer picture for a fair and balanced redistricting throughout Pennsylvania. Gerrymandering has been a problem here for far too long.

Do you support a state constitutional amendment to form an independent commission to redraw Congressional and legislative districts? Why or why not? Absolutely. To expand on my comment above, the redistricting must be done independently and be non-partisan.

Although Pennsylvania recently modernized its election code, there are other reforms that would further modernize Pennsylvania’s elections. If elected, what reforms would you support to ensure that all citizens who want to vote are able to securely, privately, and independently cast a ballot? PA recently implemented no-excuse voting by mail (which allows for early voting). I would also support same day voter registration and additional funding for voting technology upgrades, especially for privacy and election security. In short, I would support any and all voting modernization measures to ensure that our elections are accessible, efficient, and secure. Similarly, I would also oppose any measure that serves to disenfranchise voters in any way.

While there have been some positive legislative actions recently, partisan gridlock in Harrisburg has taken its toll, and many people feel that Pennsylvania’s state government is dysfunctional. What types of reforms, if any, would you support to make the legislative process in Harrisburg more effective? Too often these days, people have forgotten how to listen to each other. While I will always strongly advocate for my constituents and my priorities, I will be certain to communicate among my fellow representatives in order to understand their perspectives and to try to build consensus in addressing the range of basic to the most complicated issues we face. I firmly believe, regardless of party, that compromise and coalition building is essential to productive discourse and achieving meaningful results. Moreover, I will do my best to communicate these efforts to my constituents in a transparent manner consistent with the high levels of service that they expect, deserve and which we strive to provide.

Do you support a state constitutional amendment to form an independent commission to redraw Congressional and legislative districts? Why or why not? Yes, I wholeheartedly support reforming our congressional and legislative redistricting processes to implement a redistricting commission comprised of independent citizens. Fairly drawn districts help to ensure representation by government that reflects the will of the people and are the cornerstone of a representative democracy.

Although Pennsylvania recently modernized its election code, there are other reforms that would further modernize Pennsylvania’s elections. If elected, what reforms would you support to ensure that all citizens who want to vote are able to securely, privately, and independently cast a ballot? Access to the ballot box and our exercising of the critical civic duty of voting should never be ignored or taken for granted. I support early voting, automatic registration, and the mailing of voting reminders. I also support the restoration of voting rights (not privileges) for incarcerated citizens convicted of non-voting-related crimes. Finally, I am interested in exploring options for online voting that would be secure while protecting privacy and integrity of our election process.

While there have been some positive legislative actions recently, partisan gridlock in Harrisburg has taken its toll, and many people feel that Pennsylvania’s state government is dysfunctional. What types of reforms, if any, would you support to make the legislative process in Harrisburg more effective? Harrisburg needs to get back to the process of governing. I will do all I can to find solutions including spending time with my peers on both sides of the aisle across the state. From a process reform perspective, I support drawing fair, independent legislative districts. I support campaign finance reforms that provide public funding of campaigns. Finally, there are two measures to ensure elected officials are maintaining the integrity that is essential. I also support rules that allow for bills to move rapidly with strong bipartisan support. I would propose rules reform that allows for bills to move quickly through the legislative process, that includes requiring bills that have bipartisan support to be given a vote in committee and bills that are favorably reported from committee to be given an opportunity for debate. Rules
reform such as these would encourage lawmakers to work cooperatively to come up with solutions to the difficult problems the state will face in light of the coronavirus epidemic.

**Do you support a state constitutional amendment to form an independent commission to redraw Congressional and legislative districts? Why or why not?**

Yes; Redistricting is a critical component of our electoral system and has a profound impact on representation at the state and federal level. The partisan mapping that occurs every ten years is at the whim of the political party in charge and disparately impacts the minority party, an impact that has the effect of skewing the results for future elections, thus perpetuating an unfair system. In order to end the practice of gerrymandering you need to make the process more independent and transparent to assure that communities are fully and fairly represented in the state legislature and in Congress.

I strongly support Gov. Wolf's signing of Act 77. Although Pennsylvania recently modernized its election code, there are other reforms that would further modernize Pennsylvania’s elections. If elected, what reforms would you support to ensure that all citizens who want to vote are able to securely, privately, and independently cast a ballot? Automatic voter registration, unless the citizen opts out. Pre-registering 16- and 17-year-olds so they’re ready to vote as soon as they turn 18. Ballot position randomization – remove the advantage held by candidates at the top of the ballot. This is of particular interest to me since I drew the last position on the primary ballot! Funding – ensure that election officials have money for equipment, staff, and training necessary to implement secure and accurate elections.

While there have been some positive legislative actions recently, partisan gridlock in Harrisburg has taken its toll, and many people feel that Pennsylvania’s state government is dysfunctional. What types of reforms, if any, would you support to make the legislative process in Harrisburg more effective? Pennsylvania’s procedural rules allow committee leaders to flout the will of their constituents by intentionally stalling bills that have bipartisan support. The bipartisan FairVote organization ranks Pennsylvania 0 on its Agenda Fairness Index. I will support reforms that enable collaborative legislation, including automatic advancement of bills that are heard in committee without requiring a vote or approval of the chair, as well as a rule that allows bipartisan majorities within a committee to bring legislation to a floor vote. I have faced Pennsylvania’s dysfunction firsthand as an advocate for an extreme risk protection order (ERPO), or red flag law, which remains stuck in committee despite broad bipartisan support.

Do you support a state constitutional amendment to form an independent commission to redraw Congressional and legislative districts? Why or why not? Yes. Partisan gerrymandering takes power away from the citizens and puts it into the hands of political parties and outside interests. It protects incumbents and cement partisan polarization, making collaborative leadership all but impossible. This is not a natural state - these rules were made by men. Now we have the opportunity to remake the rules and build a framework for the Pennsylvania General Assembly that ensures it will truly represent the people.
